WHITLOW FINED

Police Must Pay \$25 for Conduct Unbecoming an Officer.

On charges of conduct unbecoming a policeman and a police officer, mounted policeman Whitlow was fined \$25 by the Board of Police Commissioners yesterday. The charges were preferred by two negro women, Louise Robinson and Daisy Robinson, who testified that the officer, while on duty, had been in the act of assaulting them in the rear of a building on the corner of 2nd and Main streets, in a drunken condition and arrested them. He charged them with resisting him in the discharge of his duty. They were dismissed by Justice Randolph.

The board met until a late hour. Among other things, the board decided on a proposition to amend the city charter, and on a proposition to amend the city charter.

The board also approved the adoption of a new uniform for the police, and on a proposition to amend the city charter.

BALTIMORE CHAP HELD AS ROBBER

McMahon Gets Him at the Roanoke, Loaded Down With Stolen Property.

ADMITS OTHER THEFTS

Tells Detective That He Broke Into Southern Jewelry Supply Shop.

Admitting his guilt, after being put through a severe examination by Captain McMahon, chief of detectives, and confessing that he had spent one year in a Maryland prison for housebreaking, Thomas R. Bowen, alias Roy Bowen, alias William L. Padgett, alias H. Thompson, twenty-two years old, was arrested yesterday afternoon at headquarters on a charge of having broken into and robbed the Southern Jewelry Supply Shop, 11 East Main Street. It was late for Bowen; it was fortunate circumstances for the detective, which led to the young man's arrest. After he came here a few days ago Bowen boarded at 616 East Franklin Street on Saturday night. Then he moved to the Roanoke House, 114 North Eighth Street. Yesterday afternoon Mr. Levy, proprietor of the place, called upon headquarters and asked that a detective be sent to his place, as one guest had complained that a suitcase had been stolen from him, another that a \$10 gold watch had been stolen from him, and still another that a safety razor, brush and soap had been stolen from him.

Loaded Down With Stuff

There was no one else in headquarters, and Captain McMahon answered the call himself. Bowen was pointed out to him as the man suspected of the thefts, and he was invited by the chief of detectives to take a walk to headquarters. Captain McMahon searched him and found in one pocket the watch alleged to have been stolen from William T. Moore, one of the guests in the Roanoke House. The search was continued. From another pocket three more watches were taken out. At first Bowen refused to say where he had got them. Finally, under threat of questioning, he admitted that they were stolen, and said that there were more in his room. Captain McMahon immediately suspected that he had the man who had broken into the shop of the Southern Jewelry Supply Company. He called in Detectives Wiley and Kellam, to whom he had assigned the big robbery, and sent them to the Roanoke. They returned with a suitcase, said to have been stolen from Fred Reuben, a boarder. It was opened, and fifteen watches, numerous rings, chains, watch charms, fobs and other pieces of jewelry were found in it.

Says He Admitted Crime

Bowen began to cry. Captain McMahon let him cry a few moments, and then pressed him for an explanation as to his possession of so much jewelry, and according to the detective, the boy confessed that he had robbed the jewelry store.

In the suitcase were found a man's solid gold watch, a filled gold watch, a woman's gold watch case, from which the works had been taken; four 14-karat gold watches, a case, five ingersoll watches, two watch fobs, a dozen watch guards, a dozen gold watch chains, a gold bracelet, innumerable rings of more or less small value and other pieces of jewelry. The watch stolen from Mr. Moore was identified. As to the other watches, Bowen ingersoll watches, which he had stolen from Bowen, were found in Bowen's pockets. Bowen finally admitted that he had stolen them from the Southern Jewelry Supply Company.

Came From Baltimore

Bowen said that both parents are living and that his home is at 638 North Broadway, Baltimore, Md. He said that he came here with a woman, who has since gone to Danville. He was sent to the Second Police Station. The Southern Jewelry Supply Company, which was broken into some time Saturday night, and the robbery was discovered by the proprietor at 2 o'clock Sunday afternoon.

Stead Membership Campaign

Are You An Aviator?

We ask you this personal question because aviators are the only class of men we know who do not need to lay up a Savings Account for Old Age. The reason is obvious, so it is not necessary for us to go into the painful details. But even an aviator generally leaves some one on terra firma who could use the bank account to good advantage even after he has taken his last "spiral glide." So we think we can say that every class of man is really benefited by a Savings Account in the

MUST GIVE WHOLE TIME TO HIS WORK

Salary of Electric Plant Superintendent to Be Fixed at \$2,750 a Year.

After prolonged discussion, the Committee on Ordinance, Charter and Reform last night recommended to the Council that the salary of the Superintendent of the Municipal Electric Plant be fixed at \$2,750. An ordinance drawn by the Committee on Electricity regulating the management of the plant and requiring the superintendent to give his whole time to the city was recommended, after being amended by increasing the salary from \$2,100 to \$2,750, limiting the time of officers and firemen, now employed for twelve hours, to ten hours daily, and increasing the pay of the chief engineer from \$110 to \$125 per month. Mr. Hirschberg fought vigorously, but unsuccessfully, for an amendment requiring that all employees of the plant should be registered voters and tax-payers. It developed that one switchboard tender, who came to the plant recommended by the Virginia Railway and Power Company, for which he had worked, is not yet twenty-one years of age, although that fact was not known when he was employed. The charge was made that there was an eligible voter in the Hirschberg's ward seeking the position, but this was denied. Since the man was giving satisfactory service, the members of the committee refused to vote to have him displaced.

Tells of Plant's Work

Consulting Engineer E. W. Trafford, who designed and has had charge of erection of the plant, and who has been acting superintendent since its completion, made a general statement of the growth of the demands since the plant was first proposed, claiming that it had met every promise made when designed, and that current would be produced even more cheaply as the amount increased.

The ordinance proposed that current used by the Water Department be charged for at cost, at no time to exceed 2 cents per kilowatt, although when the electric plant turned over to the Old Pump House then valued at \$300,000 as a site for the plant, with its water power rights it was stated in the ordinance that the Water Department was to receive in perpetual compensation without further charge power to pump 12,000,000 gallons of water daily.

Stable Permits

The Ordinance Committee also recommended adoption of the following measures: Stable permit for S. H. Cottrell, at Hancock and Marshall Streets. Stable permit for C. F. Sauer, at Hancock and Marshall Streets. Permit for stable to W. Fred Richardson, in alley between Grove and Floyd, Plum and Lombardy.

Increasing the Salary of the Clerk

Increasing the salary of the clerk of the Hustings Court, Part I, at \$1,800 per annum, and allowance for a deputy at \$600 per annum, in lieu of all fees. Increasing the salary of the Gas Inspector from \$1,650 to \$1,800 per annum. Increasing the salary of the Assistant City Attorney from \$2,400 to \$3,000, and requiring that he devote his entire time to the city.

Some Ordinances

The committee also recommended adoption of the following general ordinance: Ordinance prohibiting any person under eighteen years of age from driving any public hack on the streets of the city. Ordinance prohibiting begging, holding of street meetings and general soliciting for any charity without a permit. Ordinance allowing construction of electric signs on roofs of buildings. The ordinance fixing the pay of members of the Administrative Board was tabled; that increasing the number of salaried men from 150 to 151, to provide a bar for the proposed new hotel at Eighth and Grace Streets, was referred to a subcommittee consisting of Messrs. Pollock, Lumsden and Brown, and the ordinance limiting the number of pawnbrokers' licenses to three was tabled for a special meeting to hear from interested parties.

GINTER PARK TO SETTLE PROBLEM

Great Work of Our Health Department Attracts Wide-spread Attention.

Incorporation, Annexation or Some Tax Plan to Be Decided at Meeting To-Night.

Announcing that the great undertaking of the Health Department for this year would be a concerted effort to reduce the infant mortality rate of Richmond, Chief Health Officer Levy laid before the Council Committee on Finance last night a schedule of the financial needs of the department for the coming year. The total increase over appropriations for the past year is only \$2,650. Dr. Levy explaining that even were this granted the expenditures of the city for health purposes would then only amount to one-third of the expenditures of other cities of the annual budget, thus ridiculing the opponents of the work of the Health Department, who have darkly prophesied that it would soon bankrupt the city.

The total asked for in the forthcoming budget is as follows:

Pay roll, \$24,000; expenses, \$2,650; sanitary improvement of the milk supply, \$4,500; special vaccination, \$1,000; tuberculosis campaign, \$1,000; educational campaign, \$500. The total of salary increases in the department during the past year has been less than \$700; the accounts for education, vaccination and tuberculosis, which are the same. The chief increase in the expense account, in which an increase of \$2,150 is requested, of which \$1,500 will be used in extension of present efforts to reduce the infant death rate of the spring and summer months.

Great Typhoid Decline

Charts were presented showing the wonderful decline in the typhoid death rate of Richmond in the past five years, a record which has attracted the attention of sanitarians all over the country. In the sanitary base of \$200 of the milk supply an increase of \$200 is asked, made necessary by increased expense of inspecting dairy farms remote from the city.

Copies of a Pennsylvania weekly, with its leading article on the wonderful results obtained by the health work of Richmond, were distributed to members of the committee, and a letter was read from Dr. P. M. Hall, Health Commissioner of Minneapolis, who stated that his city had appropriated \$20,000 for work to prevent infant mortality, which was to be expended along the plan known among health officers as the "Richmond plan."

Members of the Finance Committee

showed much interest in the work of the Health Department, asking many questions both of Dr. Levy and of President Oppenheimer and Messrs. Gordon and Phillips, of the board.

STRIKER FINED

Ordered to Pay \$25 for Assault on Strike-breaker.

W. A. Elam, one of the men who recently went out on a strike against the Richmond branch of the American Locomotive Company, was fined \$25 in the Hustings Court yesterday for alleged assault upon a strike-breaker. The case came upon appeal from the Police Court, where Elam was fined \$50.

Elam had since returned to work at the Locomotive plant, and he and the man upon whom the alleged assault was committed had become friends, so the attorneys for the company asked that the fine be reduced, and it was cut in twain.

CHILDREN BREAK GROUND FOR CONFEDERATE BUILDING

With simple exercises ground was broken yesterday morning and the work of excavating begun on the site where the Confederate Memorial Museum will rise at the Boulevard, Kensington Avenue and Stuart Street.

J. Taylor Gilchrist, grandson of Lieutenant-Governor J. Taylor Gilchrist, and Epps Hunter, Jr., were given honor of turning the first spadeful of earth. The museum will cost \$25,000. The contract was awarded to A. L. Phillips & Sons. The work will be pushed ahead with all possible speed, and it is expected that the structure will be completed by February, 1912.
